

THE LANGUAGE LAB IS ANYWHERE YOU TEACH.

LIVE is a browser-based language lab application that is available on-demand for language teaching in-person, remote, and in hybrid models. Ideal for any language, and at any level.

A teaching application designed to seamlessly integrate into 1:1 programs giving students more opportunities to develop target language communication skills to build proficiency.

- Access the LIVE teaching tools from a web-browser; teacher and students simply log-in to get started.
- Use it anytime & anywhere with Chromebooks, Windows PCs, MacOS devices.
- Communicate in real-time with all students, individuals, partners, or groups working together.
- Easily select student partners or groups for oral interpersonal communication activities.
- Use authentic resources to facilitate open-ended speaking practice—audio, video, images, your voice prompts.
- Monitor students during class and provide immediate, formative feedback.
- Pace and guide in class activities with easy control of students' virtual recorders.
- Quick one-step collection of all student recordings for review and assessment. Share later for student self-reflection and peer review.
- Help students build confidence and develop listening & spontaneous speaking skills for more successful standardized oral exams.

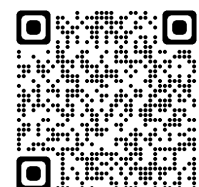

ENGAGE STUDENTS IN COMMUNICATIVE LEARNING

INFORMATION.**

The productivity tools in LIVE enable teachers to efficiently manage class activity giving students more time to develop interpersonal, interpretive, and presentational speaking skills.

Research indicates that more time spent using the target language helps build student confidence and proficiency.

Maximize class time

When teachers and students log-in to a LIVE class, synchronous communication begins immediately.

Boost student production

Quickly partner students for speaking practice to maximize L2 communication.

Individual attention

Easily monitor students in class to see how they are progressing and provide immediate help to anyone that may need it.

Authentic content

Enrich curriculum and build cultural competence with authentic content - audio, video, web links, text.
